Education

National University of Modern Languages (NUML)
Bachelor's in Computer Science

Islamabad,PK
2021 - 2025

Askaria School And Collages -Pre Engineering

Rawalpindi,PK

Experience

Web Intern at Jataq Technologies

3 Months

- Worked on HTML, CSS, JavaScript, and React.js
- Assisted in developing and maintaining web applications
- Collaborated with team members to implement design changes and functionality enhancements
- Participated in testing and debugging processes to ensure high-quality deliverables

Web Intern at CoreTechSols

3 Months

- Developed custom websites using HTML, CSS, and JavaScript Implemented WordPress CMS solutions, utilizing Elementor for front-end design Designed and optimized user-friendly interfaces for seamless navigation and engagement Collaborated closely with clients to understand requirements and deliver tailored solutions Conducted website maintenance, updates, and troubleshooting to ensure optimal performance

Projects

ChicBazaar Shopping Website

- Developed a full-stack e-commerce application using the **MERN stack (MongoDB, Express.js, React, Node.js)**.
- Utilized **Redux Toolkit** for state management and **JWT tokens** for secure authentication.
- Implemented REST APIs for managing user and order data, designed an admin panel for CRUD operations, and integrated features like "Add to Cart" and error handling.

XSocialize - A Dynamic Social Media Platform

- Developed with React.js and **Appwrite** using **Redux Toolkit**, featuring secure user authentication and account creation.
- Enabled users to write blogs and upload multimedia content (pictures, videos), with integration of the Unsplash API for image search and selection.
- Provided a seamless environment for interacting with multimedia content and ensured a secure platform for community engagement and sharing.

Portfolio & Authentication App

- Developed a portfolio app using the **MERN stack (MongoDB, Express.js, React.js, Node.js)** with secure user authentication via **JWT** and **Context API** for state management
- Designed a responsive frontend with React for an intuitive user interface and created backend API routes with Node.js and Express.js for MongoDB interactions.
- Utilized Postman for API testing and ensured secure data storage and retrieval.

Technical Skills

Languages	JavaScript, HTML/CSS
Frameworks	React, Node.js, Express.js
Developer Tools	VS Code, GitHub, Docker
Databases	MongoDb, SQL
Hosting	Vercel
